

## Professional Engineering and Artisans: TES

## When permanent is not the only alternative

With changes in the Labour Relations Act it is important to understand that not all temporary contracts need to convert to permanent employment after 3 months. At Primeserv we provide fully compliant temporary staffing solutions structured to meet the specific requirements of a project's duration or scope. We offer our clients the flexibility of a pre-defined contracted period with a termination date, or the conversion to permanent employment of a suitable candidate.

*Staffing solutions with the flexibility to meet specific project requirements*
