

Enhancing our ability to deliver service excellence

With over 25 years' experience in professionally servicing our clients in the Power Generation, Petrochemical, Paper and Pulp and in the Mining Sector we have always believed in evolving ourselves to better meet their requirements and expectations. As the industry opens up, the need for increased quality of service, solutions, and support will become defining differentiators for clients.

We are proud to announce that **Lapace is now part of the Primeserv Group**, a company listed on the JSE since 1998. Primeserv provides leading edge integrated business support services which drive increased productivity and performance for its clients. We believe that our highly specialised service offering, skills base, and operations will be substantially enhanced by Primeserv's skills set, experience, support systems, and its established national infrastructure.

This combined strength enables us to serve you better.
